

## Summary

---

### Front-End Developer

Front-end web developer building **Responsive** and user-friendly websites. Proficient in **HTML, CSS, JavaScript**, and modern front-end frameworks like **React**. Focused on creating clean, efficient code and smooth user experiences across devices. Eager to contribute to a dynamic team and further develop technical skills in real-world projects.

## SKILLS

---

Languages: HTML5, CSS3, JavaScript

Frameworks & Libraries: Bootstrap, React

Developer Tools: Git, GitHub, Visual Studio Code

## PROJECTS

---

### CodeX

[Project Link](#)

HTML CSS Bootstrap JavaScript

- Designed and Developed a Product Landing Page for Camera Product and Accessories
- Created a modern and responsive design with **Bootstrap**, which included components like navigation bars and product cards
- Ensured a seamless navigation flow with distinct pages for different sections: Home, Accessories and About Page

### Maharaja

[Project Link](#)

React CSS JavaScript

- Developed a visually appealing and fully responsive restaurant website, using **React** and styled with **CSS**
- Enhance the website with a mobile-first approach, ensuring an excellent user experience across smartphones, tablets, and desktops
- Applied **media queries** to ensure the layout adapts smoothly across different screen sizes
- Implemented a dynamic section featuring the restaurant's daily specials, developed using **React components**

### PortFolio
